

Tired of spending hours in front of your microscope?

WHEN: Tuesday 24 March 2015, 9:30 am–12:00 noon

WHERE: Centre for Genomic Regulation, Room 473.10 (Aula),
c/ Dr. Aiguader 88, 08003 Barcelona

Christian Holz

Application Scientist,
Imaging
Molecular Devices

Raúl Gomez Riera

Advanced Light
Microscopy Unit
Centre for Genomic
Regulation

Want to get stunning images and superior high-content data from your assays quickly?

Join the FREE High Content Imaging seminar presented by the Advanced Light Microscopy Core Facility Unit of CRG and Molecular Devices, and explore automated microscopy using the ImageXpress® Micro XLS.

9:30–10:15 am

ImageXpress Micro technology

10:15–11:15 am

How to simply analyse advanced imaging applications, ranging from angiogenesis, neurite outgrowth and stem cells to zebrafish...

11:15–12:00 noon

MetaXpress: from customized acquisition toward smart acquisition

12:00 noon–4:00 pm

Meet our experts Christian and Raúl for discussion and live demonstrations of the ImageXpress Micro at the CRG Advanced Light Microscopy Unit
