PRESENTS

Gee!

DATA VISUALIZATION AND INFOGRAPHIC DESIGN
1-day Training Workshop
Organized at IBEC

Apply by: 30th June 2019

The workshop aims to provide participants with an accessible and comprehensive introduction to data visualization — the visual analysis and communication of data.

Date & Place: 17th October 2019 / 9-17h — IBEC
Trainer: Andy Kirk, Visualising Data

Content will be delivered through an energetic blend of teaching, discussion, individual practice and group work.
Topics covered include among others:

• Assessing the physicality and meaning of your data
• The skill of graphical literacy
• The influence of an editorial approach to data-driven design
• Fundamental visualization design principles
• The role of different chart types and how they tell different stories
• Colour theory and best practices
• The importance of annotating for assistance and insight
• The power of interactivity and animation
