

PRESENTS

DOCKER / SINGULARITY

Organized by: CRG Bioinformatics Unit

Apply by 1st June 2019

Dates: 13th & 14th June 2019 - 9:30am - 1:30pm

Location: CRG Training Center - Bioinformatics room (PRBB ground floor)

Instructors: Toni Hermoso (CRG), Luca Cozzuto (CRG) and Eduardo Arango (Software Engineer, Sylabs, Inc, USA)

Maximum n° of students: 19

This two-day workshop introduces the Linux containers (Docker and Singularity) and provides hands-on training on how to use containers for sharing the code and data and conducting reproducible research.

Requirements: Attendees should be already familiarized with UNIX command-line.
