WET LAB BIOLOGY CRASH COURSE FROM PIPETTING TO UNDERSTANDING

Apply by 12th July 2019

Teachers: Paula Pifarré & Marc Bataller

Date: Thursday 18th July (10-17h)

Location: Teaching lab 1 (6th floor)

Maximum n° of students: 20

Undergraduates and master students

- Have you ever performed an experiment without really understanding the process behind?
- Have you ever tried to troubleshoot your experiment and you didn't know where to start?
- Have you ever tried to repeat your own or somebody else's experiment but you didn't get the same results and got lost following the protocol?

This course is meant to help you to:

- Understand the basic principles of protein biology
- Be more efficient in performing and troubleshooting experiments
- Feel more confident with wet lab experiments

The training will convey wet lab hands on work, group work and group discussion.
