

# NEXT GENERATION SEQUENCING CONFERENCE

FRED SANGER 1918 - 2013

# NGS'14

JUNE 2 - 4, 2014

BARCELONA, SPAIN

## Mark Your Calendars for the NGS 2014

The Next Generation Sequencing Conference 2014 (NGS 2014) is a dedicated meeting on cutting-edge approaches to the processing and analysis of Next Generation Sequencing data.

This three-day conference (two-day main meeting with one day tutorial) will bring together some of the best researchers from around the world, honor the late Fred Sanger, and provide opportunity for presentation of YOUR latest research developments. Sizeable space will be dedicated to emerging and future trends in high-throughput sequencing and their associated computational challenges.

### KEY DATES

Paper/oral and Poster Submissions Open  
→ 27 Jan 2014

Submissions Close  
→ 14 Mar 2014

Author Acceptance Notifications  
→ 06 Apr 2014

Early registration opens  
→ 10 Feb 2014

Early registration closes  
→ 28 Apr 2014

Online registration closes  
→ 26 May 2014

### CONFERENCE TOPICS

- State of the art technologies
- Novel software and algorithms
- Novel applications in genomics
- Epigenetics and RNA-Seq
- Clinical and translational applications
- Applications to agriculture and biotechnology
- Societal implications: forensic law, sociology research, history, etc.
- Economical impacts

### KEYNOTE SPEAKERS

**KRISTIN ARDLIE**  
The Broad Institute  
of Harvard and MIT, USA

**THOMAS GINGERAS**  
Cold Spring Harbor  
Laboratory, USA

**JOHN MARIONI**  
EMBL-EBI  
United Kingdom

### CONFERENCE CHAIRS

**Roderic Guigo Serra**  
Centre for  
Genomic Regulation

**Cedric Notredame**  
Centre for  
Genomic Regulation

An Official Conference of the  
International Society for  
Computational Biology
