# INTRODUCTION TO HPC AND COMPUTING CLUSTERS

**Apply now!**

This course will give an introduction to cluster computing in general, the basics of using Linux and using the computer clusters available at CRG and CNAG.

The course will consist of 4 sessions each of 3 hours. The first day will introduce using the terminal for complete beginners. We will then look at intermediate use of linux in the terminal, concepts important in parallel computation, parallel file systems and using the batch scheduler on the cluster.

**Instructor:** Emyr James, Head of CRG - IT

**Dates:** 17, 20, 26 and 27 April 2023 (10:30-13:30h)

**Location:** Bioinformatics room (CRG Training Center, PRBB Patio)

**Level:** Beginners

**Maximum n° participants:** 18
