PRESENTS

MENDELIAN RANDOMIZATION

**Application deadline!
1st May 2022**

Teacher: Blanca Rodriguez-Fernandez and Natalia Vilor-Tejedor
Dates: 11th of May 2022
Time: 09:00-11:00
Location: CRG Bioinformatics room (PRBB Patio) and zoom streaming
Maximum number of onsite participants: 18

In this second part of the Mendelian randomization (MR) workshop, we will explore how to compute and interpret different MR methods in R. We will attempt to explore both simple and robust methods for causal inference in MR studies, and some details about the instrumental variable assumptions on which they are based. You will also gain some knowledge on how to interpret the results.
