PRACTICAL TOOLS FOR QUICK DATA VISUALIZATION IN R

Apply by 4th March 2022

This crash course was born to spread the word on the existence of R packages that offer great functions to quickly explore, present, and communicate our results. During the sessions, we will use data visualization to try to answer questions and create new hypotheses by exploring the sample datasets and your own.

Teacher: Miquel Anglada Girotto
Date: 15th March 2022 and 17th March 11:00-13:00
Location: Online
Level: Intermediate - Basic knowledge of R required
Basic Software: RStudio
Maximum nº students:
Topics covered: Data visualization with R
