

PRESENTS

THE ESSENTIALS FOR CLEAR FIGURES IN SCIENTIFIC PUBLISHING

Apply now!

Every scientist has to visually communicate scientific data. As figures in scientific manuscripts, slides in conference talks, posters and increasingly also as graphical abstracts, interactive visualizations, and in dashboards. Yet, the fundamentals for designing data visualizations for audiences are not part of the core undergraduate and graduate curriculum.

Instructor: Dr. Helena Jambor

Dates: Thursday, April 25th 2024

Hour: 9:00-17:00h

Location: Online
